

SOLID WASTE, TRASH, JUNK, POLLUTION

For complaints regarding accumulation of trash, junk, or other nuisance **conditions** first consult with your local codes official at city hall in the town where you reside. If you live outside of town in the country or an unincorporated hamlet or village, consult Lafayette County Planning and Zoning 660-259-4439. The Lafayette County Health Department is available on a limited basis to provide consultation and referrals to code officials, but has no regulatory ability through state statute or county ordinance to enforce nuisance abatement.

For questions about **trash service**, consult your city hall or if in the country:

Heartland Waste, Warrensburg 660-429-1040

AAA Disposal Services, Buckner 816-650-3180

Briggs Disposal, Bates City 816-405-7500

Consult internet or yellow pages for more options.

For **household hazardous waste** recycling and **electronic waste** recycling:
